

# Atlona AT-HD-V24M 2x4 HDMI Matrix Switch HDMI 1.3 with 3D Support

## 2x4 Atlona HDMI Matrix Switch (HDMI 1.3) with 3D Support. Model: AT-HD-V24M

The 2x4 Atlona HDMI Matrix Switcher with RS-232 and IR Remote is designed to work as a switcher for multiple sources and displays. With a maximum bandwidth of 6.75Gbps, this device will support a sharp and highly defined video in multiple resolutions of up to 1080p. Because it is a matrix switcher, it allows any input to be routed to any output; or the same input to be routed to all outputs or any combination. It completely eliminates the need to constantly move around video input and output cables. RS-232 control allows the switcher to be controlled by systems like Crestron or any computerized software/hardware control systems. Atlona's AT-HD-V24M comes with IR remote control as well.

### Key Features:

- **3D Capable**
- HDMI Matrix Switching between multiple sources and displays.
- Allows connection of 2 sources and 4 displays
- Supports resolutions up to 1080p
- Supports all latest HDMI audio formats including Dolby TrueHD and DTS-HD
