

## Gefen CAB-HDMIX1.3-100MM HDMI 1.3 Fiber Optic Cable 100 ft (M-M)

### HDMI Extreme Fiber Optic Cables

**Introducing HDMI Extreme - Fiber Optic Based HDMI 1.3 Cables** These Fiber Optic based cables exceed the performance of copper and silver cables. HDMI Extreme is an integrated HDMI cable solution which includes fiber optic cable and electro-optical components built into the HDMI connector at the endpoints. This cable requires a clearance of 1.42";(36mm) wide conduit. The lengths available are 50, 66, 100, 166 and 330 feet. These cables are HDCP compliant.

A single power supply is included for use on the display end of the cable in case the video source signal is too weak to power the entire extension distance.

### HDMI 1.3 Features:

- Lip Sync Pass Through
- 225 MHz (up to 12 bit YUV 444 supported @ 1080p)
- Deep Color Supported (XV Color Supported)
- Dolby TrueHD & DTS Master Supported
- CEC Source Switching Enabled

**HDTV Resolutions Supported:** HDMI Extreme Cables support HDMI 1.3 resolutions up to 1080p.

**Computer Resolutions Supported:** HDMI Extreme Cables support resolutions up to 1920x1200

**HDMI Extreme Fiber Optic Cables are not designed for permanent in-wall installation. Please use the Gefen HD 1000 Extender for permanent in-wall installation.**
