

Gefen CAB-DPX-100 DisplayPort Extreme Extension Cable 100 ft

DisplayPort Cables - Fiber Optic

Employing fiber optic materials in construction and inheriting legendary transfer speeds and immunity to signal disturbances, DisplayPort DPX Extreme cables open up new options for long-distance DisplayPort signal extension. Robust construction guarantees flawless function in the rigors of most operating environments. These cables are a hybrid of copper conductors and glass optical fibers with advanced electro-optical circuits embedded in the DisplayPort connectors.
