

Atlona AT-HDMI-11S ATLONA HDMI BOOSTER (PRO)

The Atlona Technologies AT-HDMI-11s is the most advanced solution for HDMI to HDMI signal booster. It is compatible with HDMI v1.3 specifications, supports Deep Color (12 bits/color) video, lossless compressed (Dolby TrueHD, Dolby Digital Plus and DTS-HD Master Audio) digital audio, and with a high bandwidth up to 225MHz. The AT-HDMI-11s HDMI booster also amplifies the signal to provide high performance I/O of audio and video through HDMI cables for a distance up to 50 feet on each side at 1080p@60Hz.

Features:

- HDMI 1.3, HDCP 1.1 and DVI 1.0 compliant.
- Supports digital video formats in Deep Color Mode at up to 36 bits (12bits/color) and new lossless compressed (Dolby TrueHD, Dolby Digital Plus and DTS-HD Master Audio) digital audio.
- Supports equalization and recovers incoming TMDS data before re-transmitting them with optimal quality regardless of the incoming signal quality.
- Supports high definition input up to 1080p@60Hz, output resolution follows input. The distance can run up to 50ft each side.
- Supports CEC function.
- Easy to install and to operate.

Package Contents:

- 1 x AT-HD11S
- 1 x Power supply
- 1 x Instruction manual
