

# Atlona AT-DIS7-HD 7 inch HD Monitor with HDMI Input

## ATLONA 7" HD MONITOR WITH HDMI INPUT

### MODEL: AT-DIS7-HD

The Atlona AT-DIS7-HD is a 7" testing monitor designed for those looking to test cabling and the installation of different components. This monitor is useful where displays are in a remote location or not yet present. This portable display will recognize any HDMI or DVI source at resolutions up to 1080p (including computer resolutions), and allow integrators and installers to observe both audio and video signals in real time. An added function allows users the ability to view signal information such as HDCP compliance, Resolution, Frequency, Digital format and Audio information. The AT-DIS7-HD also reads the EDID HDMI information from any source and stores it within the monitor for advanced troubleshooting. With multiple control options, including manual as well as IR remote control, the AT-DIS7-HD is perfect for installers and integrators looking for a simple solution to monitor or verify audio & video settings on remote displays. The AT-DIS7-HD can also be placed in the AV rack for constant monitoring.

### Features:

- 7" TFT testing panel
- HDMI 1.3b
- Accepts TV resolutions up to 1080p and computer resolutions up to 1920x1200
- Built in speaker
- Manual panel button control or IR remote control

### Technical Specifications:

- Screen size: 7" diagonal
- Max Input Resolution: 1900x1200/60Hz
- Max Brightness: 220cd/m2
- Viewing Angle (CR=10): >=110° (V), >=140° (H)
- Colors: 262.1K
- Embedded Speaker: 0.8W
- Dimensions (WxHxD): 7"x4.5"x1.2"
- Mass (main unit): 5.8 oz
- Power Supply: 12V DC
- Power Consumption: 8W

### Package Includes:

- AT-DIS7-HD unit
- Operating Instructions
- Power Supply (12VDC 1A)
- Remote Control
- IR Extension Cable
