Atlona AT-HDPiX2 Usb To Hdmi Pc/Laptop To Tv/Monitor Converter Up To 1080P

Atlona Technologies presents the all new USB to HDMI adapter, the AT-HDPiX2. This new solution is designed to add a HDMI port to any computer (Mac or PC) and has limitless applications in both consumer and commercial environments. From digital signage to home theater, the all new HDPiX2 provides a simple solution for viewing content from a computer on any HDTV making it the perfect device for any consumer or commercial application. Set up is as simple as plug and play; convenient for any user, no matter the level of technical knowledge. Connect up to 6 AT-HDPiX2's to a PC and up to 4 AT-HDPiX's to a Mac. The HDPiX2 is able to display resolutions up to 1080p or 1600x1200. **The AT-HDPiX2 also includes a 6 ft. HDMI cable.** Audio is supported via the USB connection and is embedded into the HDMI output.

Applications:

The AT-HDPiX2 is a perfect device for viewing content from a computer on any HDTV making it the perfect device for any consumer or commercial applications. The HDPiX2 becomes your second video card which allows you to clone another HDTV monitor which will be an identical replication of your laptop or desktop screen. Whatever you do on the computer will display on your main computer as well as on the HDTV you are connecting the HDPiX2 to. Most of our customers are using Atlona HDPiX2 for watching YouTube, Netflix, Hulu, downloaded movies, photos, PowerPoint presentations and many others because Atlona HDPiX2 also carries the audio from the computer to the HDTV. The user has no limit on what to display!
