

Atlona AT-COMP300SL-b Component video with analog/digital audio cat5/6/7 Extender(Sender) with component loop-out

Please **NOTE**: This listing is for **B-Stock** item. It means that this unit was refurbished by manufacturer and holds full manufacturer warranty, however it may have scratches, signs of wear and tear or come not in original box.

**Atlona Component video with analog/digital audio cat5 extender with component loop-out (sender unit).
Model: AT-COMP300SL**

Atlona Extension system is designed for Component Video + Stereo Audio, Digital Audio signal over cost effective CAT5 cable instead of Component Video and Audio cable. This AV Extender is smart, fast and cost-effective, eliminating costly and bulky Component Video and Audio cable and is the most efficient way to move multimedia content from player to display. Component Video & Audio Extender is used in shopping malls, public address systems, airports, train & bus station, boardrooms, trade shows and computer based training application.

AT-COMP300SL (sender unit) can be used with AT- COMP300RL (receiver unit), which needs to be purchased separately.

Features:

- **Extends Component Video and analog/ digital audio over one UTP CAT5 cable.**
- **Supports analog stereo audio and digital audio.**
- **Digital transmission on analog stereo audio for eliminating sound distortion. (Dolby Digital,AC3, DTS passed through)**
- **Supports hi resolution up to 1080p.**
- **Long range transmission up to 1000ft (300m)**
- **Dual output: 1 Component Video loop output for local, plus 1 x CAT5 RJ45 output for remote side.**
- **Built in equalization, gain adjustment, chainable CAT5 output at remote unit.**
- **Receiver unit can be daisy chained to another AT-COMP300RL receiver to extend working range over 300 meters.**
- **Application for airports, train & bus stations, window display, trades shows and an exhibitions.**
