

Atlona AT-HDRX-IR-b HDMI HDBaseT-Lite Receiver over Single CAT5e/6/7 with/IR

Please **NOTE**: This listing is for **B- Stock** item. It means that this unit was refurbished by manufacturer and holds full manufacturer warranty, however it may have scratches, signs of wear and tear or come not in original box.

Compatible IR Control at 230 Feet

We rigorously test our boxes for interoperability with third-party controls, so expect compatibility with all major control systems.

Bi-Directional IR at a Better Price

Control your display and your source at once—instantly switch between disc and streamed content with a universal remote. The ideal receiver for applications that use IR control systems.

For added ease of use, purchase the Atlona Link Connect Captive Screw Ready IR Cable (AT-LC-CS-IR-2M)

Higher Resolutions at Longer Distances

With our IR boxes you get high-resolution: up to Ultra HD (4Kx2K) as far away as 130 feet (40 meters) and 1080p at 230 feet (70 meters).

Additional Features

- HDBaseT and PoCc simplify installation and reduce costs
- Compatible with Atlona PRO3HD matrix switchers and recommended with Atlona HDTX-IR transmitters
- Locking HDMI ports for more reliable connections
- High EMI rejection for compatibility in even the most challenging installations
- Mounting ears included
- Receives all embedded audio signals including Dolby TrueHD and DTS-HD Master Audio
- CEC pass-through so it's easier to control the entire system
- Update firmware in the field via USB port
- Allows direct wire connection from TX or RX to third-party IR control systems
