

Atlona AT-DVIF20R miniature DVI Receiver over single Multi Mode Fiber with HDCP and EDID Support

Atlona miniature DVI Receiver over single Multi Mode Fiber with HDCP and EDID Support. Model: AT-DVIF20R

The Atlona AT-DVIF20R is a DVI Receiver module with a single fiber optics input (multi-mode) and DVI male output. The AT-DVIF20R is designed to work with multiple transmitter modules:

- **AT-DVIF20S** - Miniature DVI Transmitter module with DVI Male input and single Fiber output
- **AT-DVIFW10S** - Wall Plate style DVI Transmitter module with DVI input and single Fiber output
- **AT-HDF20S** - Miniature HDMI Transmitter module with HDMI Male input and single Fiber output
- **AT-HDFW10S** - Wall Plate style HDMI Transmitter module with HDMI input and single Fiber output

Features:

- Extra Long Distance Extension up to 1200ft @1080p or 1920x1200
- EDID and HDCP Support, user will not have to deal with learning EDID
- High Resolution Video, EDID and HDCP can be handled though a single fiber cable
- Interchangeable with variety of receiver modules whether wall plate, box or miniature style (DVI or HDMI)
- UL Class A Certified, required by high class government and medical installations
- Built in Equalizer, allows user to use modules in between switchers/splitters and other equipment of that sort
- Perfect for Commercial, Government and medical Installations or for high-end residential.
- Made in USA

Note: The DVI Module is only able to pass Digital Signals (DVI-D),it can't be used with DVI/VGA adapters.
