

Atlona AT31015L-15 50ft High-quality Snagless Cat5e Patch Cable (350MHz)

50ft Atlona High-quality Snagless Cat5e Patch Cable (350MHz). Model: AT31015L-15

The Atlona High-quality Cat5e cable is a perfect addition to any network, video or audio applications. The cable is designed to support full 350 MHz and comply with TIA/EIA standards. The cable is wired with 568B termination, which would allow longer distance for data, video or audio signal. Snagless PVC jacket, molded-strain relief provides extra security, and 24K gold-plated connectors ensure clean, clear transmissions.

Features:

- Perfect for all network applications including 10 to 100Base-T networks
- Snagless PVC jacket provides an easy way to run the cables through walls and ceilings
- Molded Strain Relief provides additional security for the connectors
- 24K gold-plated connectors ensure error free transmission

Technical Specifications:

- Length: 50ft (15m)
- Conductor Size: 26AWG x 4 pairs
- Connector Type: RJ45 - 50micron gold plated
- Termination: 568B
- Jacket: Snagless PVC
- Jacket Diameter: 5.5

Warranty: Lifetime
