

# Phase Technology CI60 X 6.5in 2-Way In-Wall w Micro-Flange Grille/40Hz-22kHz

## 6.5" 2-Way In-Wall Speaker

This versatile, high-performance in-wall speaker can be used in left, right, center, and surround applications.

A pivoting tweeter can be used to direct high frequencies to your listening area. The Grille can be painted to match any room color.

Metal back box and pre-construction bracket available.
