Securitytronix ST-NVR16CH-I 16 Ch Standalone NVR/Industrial Series/up to 8TB HDD

This listing is for ST-NVR16CH-I Recorder only. Use description below as a general reference.

The Securitytronix ST-NVR*CH-I Industry Series Embedded Digital Video Recorder is an excellent digital surveillance product which adopts H.264 video compression, hard disk recording, TCP/IP transmission, and a Linux based OS in addition to some of the more advanced technologies in the information technology industry. These units enable a stable, reliable and high picture quality while supporting synchronized video and audio recording, playback, and monitoring. This series also supports network based system control, as well as excellent network streaming capabilities. The ST-NVR*CH-I series is also P2P enabled, providing easy remote access with just a QR code. P2P Functionality enables a quick and secure remote connection to client devices including PC's smart phones and tablets.

Note: HDD is not included
