

## **Apantac HDBT-SET-3 HDMI/RS-232 Extender (Transmitter/Receiver) Kit with IR Control/230ft/70m**

The **HDBT-SET-3 HDBaseT HDMI Extender and Receiver Kit** from **Apantac** includes a HDBT-1-Es extender and HDBT-1-Rs receiver unit.

The single port HDMI extender and receiver are suitable for ProAV applications that require HDMI signal extension up to 230' (70m). They use HDBaseT technology for transmitting uncompressed high-definition digital video, 3D video, and audio, and control signals such as RS232 and IR over a single CATx cable.

- Includes extender and receiver unit
- Extends HDMI signals up to 230' (70m)
- Supports HDMI and DVI formats - 1080p, HD, 3D
- Full audio support
- Infrared and RS232 control
- Transmission over a single CATx cable
