

Rolls A802 British Plug Adapter

This adapts the plug (not the voltage) of a U.S. or European style plug to be used in England and other places that use British outlets. Only to be used with articles that have universal power inputs such as our PS27s that is 100vac - 240 vac. These are also handy on cruise ships for your cell phone charger, etc..

- **Use only up to 6.5 amps**
