

## **Gefen EXT-COMP-141N Component Video Extender (Transmitter/Receiver) Set**

**Extends any Component Video HDTV display up to 330 feet using a Single CAT-5e Cable**

### **How it works**

The Component Extender sender unit connects to any component video source using the supplied Component cable. The receiver unit connects to your HDTV component video display up to 330 feet away. One CAT-5e cable is used to connect the sender to receiver for perfect video extension up to 1080p.

### **Features:**

- Supports up to 1080p Component.
- Power only required only on transmitter.
- Plug & Play installation.
- Equalizations for different CAT5 skews.
- One CAT5 Cable for extension.
- No Loss of Quality.
