

PureLink DCE DCE Modular CAT5 DVI Extension System

DESCRIPTION:

PureLink's new DCE Modular DVI Extension System over CAT5 is designed for in-wall cable runs up to 165 feet. Featuring PureLink's unique Auto-EDID management, the DCE also has independent HDCP communication to ensure fast and reliable connections while simplifying cable management. The DCE also includes an LCD display to verify resolution, taking the guesswork out of the installation. DCE supports two channel stereo audio and optical digital audio sources. When it comes to CAT5 extensions, nothing beats a PureLink™.

FEATURES:

- Plug and Play
- HDCP Compliant
- Up to 165 ft. range
- Compact and durable design
