

PureLink DC-DD1 DVI To DVI Converter w/ Down Conversion DC-DD1

DESCRIPTION:

PureLink's new DC-DD 1 is a high performance Up/Down converter/scaler. It converts any digital HD content input over DVI and outputs DVI PC or HDTV resolution. The routing of a single source to multiple HD displays of various resolutions can be a challenge. With PureLink's DC-DD 1, the problem is solved automatically, supporting both 16:9 and 4:3 sizes.

FEATURES:

- Improves brightness, contrast, and color dynamics of HD programming
- Auto-upscaling to this highest resolution your TV will support
- Plug and play, easy to set up in minutes

SPECIFICATION:

- Frequency Bandwidth: 1.65 Gbps (single link)
- Video Resolution: Input resolution: VGA (640x480) up to UXGA (1600x1200) @ 60Hz
- Video Resolution: Output resolution: VGA (640x480) up to SXGA (1280x1024) @ 60Hz
- Video Resolution: Output HDTV resolution, 480P (720x480) up to 1080P (1920x1080) @ 60Hz
- Power: +5V DC/ 2A power supply adapter
- Power receptacle: .3cm
- Dimension: 5.24 x 4.17 x .98
- Weight: 1 lbs
