

PureLink DC-DA1 DVI to Analog Converter

DESCRIPTION

DVI Link's DVI to VGA converter, model: DC-DA1, Converts digital DVI video signal to analog VGA signal. Ideal to connect new computer video card with DVI-D output to a analog display with VGA input.

MAIN FEATURES

- Enables DVI-D digital video sources output to outdated with analog display VGA inputs
- Compact and durable design
- Supporting resolutions: SVGA(800x600), XGA (1024x768), SXGA(1280x1024),UXGA(1600x1200)@60Hz

APPLICATIONS

- Automated manufacturing plants, Laboratories: Connect your new host computers with DVI-D output to existing analog displays (CRT monitor, VGA input only Projector, etc)
- Home Theaters: Connect your new computers to your existing Projector with VGA ports)

TECHNICAL SPECIFICATIONS

- DVI-D Data Rate : 1.65 Gbps (single link)
- VGA Bandwidth : 165 Mhz
- Supporting Graphic Resolution :SVGA(800x600), XGA(1024x768), SXGA(1280x1024), UXGA(1600x1200)@60Hz
- Input Connector : DVI-D 24p Female
- Output Connector : D-sub 15p Female
- Power Supply : DC 5V , 1.2A Adapter(Included)
- HDCP does not support

DIMENSIONS(mm)

DC-DA1 - 55*80*25
