

PureLink DD-150 DVI 1x5 Distribution Amplifier DD-150

DESCRIPTION:

PureLink's DVI Distribution Amps have one feature you will love... they work! With full HDCP decryption for all 5 output ports instead of just the first like all the others, PureLink sets the standard worldwide for DVI signal distribution. In fact, we put it in writing with our exclusive Certification of Full Compliance and Indemnification. No other brand guarantees it's legality in writing. The DD-150 is a 1-in, 5-out DVI Distribution Amp that will work flawlessly in your system. Be sure to note the HDCP indicator LED, a PureLink exclusive to let you know when your source and your HDTVare in sync. Insist on PureLink for the highest performance and reliability.
