Atlona HDMI/DVI to Composite and S-Video Down-Converter. Model: AT-HD530

The Atlona AT-HD530 is designed to down-convert HDMI or DVI digital signal from PC, Mac, GPS System, Apple TV, Camcorder or Video Game to Analog S-Video or Composite Video with Audio. The AT-HD530 is featured with HDMI/DVI loop-out.

Note: AT-HD530 is NOT-HDCP compatible. Will not work with HDCP Devices such as Cable/Sat Boxes and DVD players

Features:

- Automatically detects and down converts the incoming PC or HDTV resolution to NTSC or PAL formats
- Supports high resolution HDTV input up to 1080p and PC input up to UXGA (1600x1200@60Hz).
- Output video format is selectable between Composite Video and S-Video
- When the signal from HDMI or DVI source is HDCP, the Composite and S-Video outputs would be disabled

Technical Specifications:

- Video Input ports: HDMI
- Audio Input POrts: Digital Coaxial (designed for DVI with Audio Applications)
- Output ports: 1 x Composite-Video with Audio, 1 x S-Video with Audio
- Power Supply: 5V/2.6A (universal)
