

# Galaxy Audio EB-6 Single Driver Ear Bud with Case

The EB6 features a single driver delivering full frequency performance. The EB6 has a chord over 4 feet long and the earbuds weigh 6g (less than 0.25 oz; excluding cable). The EB6 includes a durable plastic carrying case with three pairs of Silicon Sleeves (small, medium and large).

## Features:

- Wideband Dyna Driver earbuds reproduce the full frequency range with natural mids, full highs, and rich bass.
- They allow musicians to monitor their mix with full detail.
- Three different sized pairs of silicon sleeves are provided for best fit and sound isolation.
- Ergonomic mechanical structure ensures long time, low fatigue use.
