Gefen EXT-USB-500 GEFEN USB EXTENDER UP TO 1640FT (4 PORT)

Extends any USB device up to 1640 feet (500 meters) from the computer with built-in 4 port hub over multimode fiber optics cable.

The ex-tend-it USB-500 extends any USB device up to 1,650 feet from the location of your computer, eliminating the 17.5 feet distance limitation of USB. The USB-500 also includes a remote 4 port USB HUB to operate up to four USB devices remotely using?Extreme USB? technology.

How it works
The ex-tend-it USB-500 sender unit is connected to the computer using the supplied USB cable. The extended peripheral(s) are connected to the receiver unit. A fiber optic cable is used to link the the sender to the receiver with HUB.

Package Includes:

- USB-500S Send Unit
- USB-500R Receive Unit
- One 6ft A to B USB cable
