

SCP RGB-3 MINI RG59/U RGB COAX 3 GHz 3C/25 AWG Cable - 500ft

MINI RG59/U COAXENHANCED 3 GHz- COMPONENT HDTV VIDEO- 3C / 25 AWG SOLID BC 95% TC Braid 75 Ohm , PVC JKT- BLACK - 500 FT SPOOL

Product Information

The SCP RGB-3 is the prototypical RGB Coax cable. The RGB-3 is a 3 color coded conductor RGB (Red, Green, Blue) Dual Shield Mini-RG59/U Coax. Each conductor has an insulated 25 AWG solid copper conductor with a bonded AL foil shield and overall 95% TC Braid. Each conductor has a color coded FR-PVC jacket. The overall jacket is a Black FR-PVC. The RGB-3 is UL and CM rated.

SCP has a full line of 75 Ω RGB and RGBHV Component cables that are perfect for all HDTV and high resolution analog applications. These cables can be used to connect RGBHV and composite video sources to projectors and displays. You can also run stereo audio and/or control signals through these cables.

SCP's RGB and RGBHV high resolution cables are engineered for today's high resolution RGBHV signals requiring low loss with optimum design. SCP offers several multi-core RGB and RGBHV configurations including:

The SCP **RGB-3** is the prototypical RGB Coax cable. The RGB-3 is a 3 color coded conductor RGB (Red, Green, Blue) Dual Shield Mini-RG59/U Coax.
