SCP CREST-DM Crest-1 control with Cat5e 350 MHz UTP 24 AWG and Cat6 550 MHz SFTP cable - 500ft

CREST-DM - (1) CAT6 S/FTP + (1) CAT5E UTP + 2C/22 AWG BC STRANDED SHIELDED W/ DRAIN + 2C/18 AWG BC STRANDED, BUNDLED, PVC JKT- BLUE- 500 FT SPOOL

Applications:
SCP Crest-DM cables makes wiring a DigitalMedia™ system easier as it you can just run one cable to each DM receiver and transmitter location.

Features:
SCP manufactures specialized control cables for Crestron Systems. These bundled cables facilitate fast and easy wiring for Crestron AV distribution switches, room solution boxes, intercoms, and touch panels. The constructions with RG6 Quad shield coax allow for distribution of CATV/Satellite and broadband video. SCP Crestron compatible cables are available in Non-plenum PVC or Low Smoke Zero Halogen (LSZH).

Construction:
This cable consists of:

- (1)Crest-1 [2 conductor 22 AWG bare copper stranded shielded with overall AL foil- low capacitance plus a 2 conductor 18 AWG bare copper stranded unshielded, and a TC drain]; plus
- (1) Cat5e 350 MHz 24 AWG solid bare copper UTP; plus
- (1) Cat6 550 MHzSFTP AL Foil Shield plus tinned copper braid shield with PVC jacket; and
- All cables bundled with an overall PVC jacket.

Cable includes SCP Cable Labeling System with sequential foot/meter markings, and room/zone/outlet designations for easy cable identification.
