

Atlona AT14043 DVI FEMALE TO DVI FEMALE ADAPTER

Atlona DVI coupler (DVI-D compatible). Model: AT14043

Atlona DVI-D female to DVI-D female (DVI-D compatible) adapter is designed to make sure that there is no signal loss when adapting DVI cables to each other. It is made out of industrial quality materials that will ensure a perfect signal transfer. Inside the adapter you will find a set of single strand conductors, which are made of High-Purity copper. The conductors are shielded by a single solid metal plate, to make sure that no interference is picked up in the conversion process. The connectors are gold plated to ensure a great connection. NOTE: DVI-D can only be adopted to DVI-D cable. When using DVI-D cables, please make sure that your source and your display are in the same DVI mode (DVI-D)

Specs:

- 24k Gold Plated DVI-D female connectors
- High-Purity single-strand Copper conductors
- 100% Aluminum/Mylar shield
- 2 Nuts on the each DVI side of the adapter to secure adapter to the cable
