

## **Atlona AT14041 HDMI FEMALE TO DVI MALE ADAPTER**

### **Atlona DVI male to HDMI female Adapter. Model: AT14041**

Atlona HDMI ( female ) to DVI-D ( male ) bi-directional adapter is designed to make sure that there is no signal loss when adapting a HDMI cable to DVI input. It is made out of industrial quality materials that will ensure a perfect signal transfer. Inside the adapter you will find a set of single strand conductors, which are made of High-Purity copper. The conductors are shielded by a single solid metal plate, to make sure that no interference is picked up in the conversion process. The connectors are gold plated to ensure a great connection.

#### **Specs:**

- 24k Gold Plated DVI-D ( male ) and HDMI ( female ) connectors
- High-Purity single-strand Copper conductors
- 100% Aluminum/Mylar shield
- 2 Bolts on the DVI side of the adapter to secure an adapter to DVI equipment
