

Atlona AT14040 DVI FEMALE TO HDMI MALE ADAPTER

Atlona DVI female to HDMI male Adapter. Model: AT14040

Atlona DVI (female) to HDMI (male) bi-directional adapter is designed to make sure that there is no signal loss when adapting a DVI-D cable to HDMI input. It is made out of industrial quality materials that will ensure a perfect signal transfer. Inside the adapter you will find a set of single strand conductors, which are made of High-Purity copper. The conductors are shielded by a single solid metal plate, to make sure that no interference is picked up in the conversion process. The connectors are gold plated to ensure a great connection.

Specs:

- 24k Gold Plated DVI-D (female) and HDMI (male) connectors
- High-Purity single-strand Copper conductors
- 100% Aluminum/Mylar shield
- 2 Nuts on the DVI side of the adapter to secure an adapter to the cable
