

Atlona AT18010L-23 75FT (23M) VGA/SVGA HIGH-RESOLUTION VIDEO CABLE (MALE/MALE)

23M (75FT) ATLONA VGA HIGH-RESOLUTION VIDEO CABLE. MODEL: AT18010L-23

Description:

Atlona's **VGA (male to male)** high-resolution video cable is a perfect solution for those who want to get the best possible picture quality out any VGA equipment. Cable is capable of transmitting either **Computer or HDTV resolutions (up to WUXGA or 1080p)**.

Atlona VGA cable was designed to transmit the best picture possible in comparison to other cables. Manufacturing process employs industrial quality components that are rated by UL under the CL2 standard for in-wall installations. Made of High-Purity Oxygen Free Copper (OFC), the conductor has a very high conductivity, low signal loss and degradation and low electric resistance. All of these result in great signal transmission. Superior High-Density triple shielding technology will reject EM and RF interference, while gold plated connectors will ensure a tight grip. Cable is CL2 Rated for professional in-wall applications.

Applications:

Interconnecting a computer, computer monitor, HDTV, Cable, SAT receivers or any other equipment that supports 15-pin VGA connection.

Connection can also be called: SVGA, S-VGA, HD-15, DB-15

Specs:

- 23M (75FT) VGA (male to male) cable
- **HDTV Compatible (max resolution 1080p)**
- PC or MAC Compatible (max resolution WUXGA 1920x1200)
- 24k Gold Plated RGB (VGA) connectors
- High-Purity Oxygen Free Copper conductor
- **Very Flexible design**
- High-density triple shielding for max rejection of EMI and RFI
- 1.950mm insulation made of polymers of vinyl/chloride (PVC).
- 10mm PVC jacket **CL2 rated** (covered with nylon sleeve)
- **UL (CL2) and RoHs**
