

Osprey 97-35412 HDMI 2.0 4x1 SH-41R Switcher with Remote/HDCP Pass Through

This simple, one-touch source switcher is a must-have for monitor, lab and AV environments. Osprey switchers are not frame aligned for live broadcast switching, but are purpose built as source switches. It supports HDMI up to 4K 60fps.

Switcher has four inputs with sync indicators which light front panel LEDs. The touch of a single button will switch the output to the selected source, or use the included IR remote.

For ease of use the switchers can be powered from any USB2.0 / 3.0 port or with the included External Power Supply using the supplied lockable USB power cable.

Features

- HDMI2.0 / HDCP2.2 Compliant
- 4 Inputs, 1 Output
- IR Remote
