TASCAM TM-DRUMS Four-Microphone Kit for Drum Recording/50Hz -15000Hz

As the driving force behind modern music, drums and percussion have developed as powerful, complex instruments. And harnessing this power requires a very specific toolset. The TM-DRUMS microphone kit from TASCAM has been created to provide the recording or live sound engineer with everything required to capture a truly inspiring soundscape.

Included the TM-DRUMS kit are: one (1) TM-50DB Dynamic Kick Drum mic with integrated stand mount, one (1) TM-50DS Dynamic Snare mic with integrated stand mount and two (2) TM-50C Overhead Condenser mics with included mic clips and windscreens.
