

TASCAM CD-400U Professional Media Player-AM/FM Receiver with Content Playback Option

The TASCAM CD-400U: a professional, versatile, and reliable media player offering the latest audio content playback options for institutions, music venues, retail, schools, restaurant applications, and more.

Ideal for a variety of installations, the CD-400U delivers the latest wireless and solid state technology content playback by offering CD, Bluetooth wireless, SD, USB, and AM/FM tuner capability for fast and easy playback of professional quality audio. Recording from the CD or AM/FM source to SD or USB media is possible.

Professional audio connections are provided in the form of XLR balanced outputs, RCA unbalanced outputs, a 2nd set of RCA outputs dedicated to the AM/FM audio, an 1/8" auxiliary input for utilizing audio from any source, and headphones for quick and silent monitoring and confirmation of operation.

The CD-400U has also been designed for full-proof and automatic operation with the inclusion of a "panel lock" function which disables the panel buttons, and an automatic playback function which starts playback upon power up.

Lastly, to ensure seamless integration into more complex systems, external control is possible using the standard RS - 232C terminal.

Features

- CD/SD/USB/and FM/AM tuner realtime audio playback
- Wireless Bluetooth playback when paired with a Bluetooth-enabled device like a smartphone, tablet, or computer
