

## TASCAM AR-P82 Portable Case for HS-P82

The AR-P82 case by PortaBrace protects the HS-P82 and organizes your batteries, headphones, cables, and compact flash cards. The new expanded RM-MULTI Extreme is a modular attachment that comes with the case. The suede leather shoulder strap and Black Leather Hand Grip help you lift and maneuver the gear.

The back pocket will carry external DC input power options: NP type, AC adapter, V-mount adapter for Endura batteries or spare AA batteries. Stored in the back pocket is a small visor for the TFT color touch screen. Roll-up; fold-away, clear vinyl windows, flaps and rain boots protect against rain, dust, snow and stay out of the way when necessary.
