

Phase Technology CS-6R POINT 6.5 inch 2-Way In-Ceiling Speaker with Micro-Flange Grille

The industry-leading performance and aesthetic design of Phase Technology's entry-level CS speakers just got a little more ambitious. The CS-6R Point is an in-ceiling "tilt" speaker, designed to give you the amiability and performance that a traditional in-room speaker would provide. Featuring a 15degree, angled tilt design in a recessed flange, the CS-6R point will provide great sound precisely where you need it while saving you wall space. All CS speakers feature a micro-flange, magnetic grille.

Phase Technology and MSE Audio Group constantly develop new technologies that enhance audio product performance. Phase Technology innovations are protected by multiple U.S. and international patents, which explicitly cover Phase Technology dispersion, enclosure and dome technologies. MSE Audio Group actively defends its patents in order to protect Phase Technology resellers and end users.

Phase Technologies strives to provide complete and effective technical information and data to dealers, engineers and designers. All data are available from SoundTube Entertainment or at www.soundtube.com. Technical data and downloads include: EASE™ data - 3-D polar plots. EASE™ Address - 2-D modeling for distributed systems Autodesk® Revit® software Tech Sheets - Technical information and architectural specs for system engineers SoundTubeSPEC™ - Proprietary speaker placement software.
