Atlona AT-HDMI-42M ATLONA 4X2 HDMI MATRIX SWITCH

4x2 Atlona HDMI Matrix Switch (HDMI v1.3). Model: AT-HDMI-42M

The 4x2 Atlona HDMI Matrix Switcher with RS-232 and IR Remote is designed to work as a switcher for multiple sources and displays. With a maximum bandwidth of 2.25Gbps, this device will support a sharp and highly defined video in multiple resolutions of up to 1080p. Because it is a matrix switcher, it allows any input to be routed to any output; or the same input to be routed to all outputs or any combination. It completely eliminates the need to constantly move around video input and output cables. RS-232 control allows the switcher to be controlled by systems like Crestron or any computerized software/hardware control system. Atlona&39;s AT-HDMI-42M comes with IR remote control as well.

Key Features:

- Matrix Switching HDMI between multiple sources and displays.
- Allows connection of 4 sources and 2 displays
- Supports resolutions up to 1080p
- HDMI 1.3 compatible
