

TVlogic SWM-550A 55 inch 1920x1080 (10-bit dithered) Studio Wall LCD Monitor

SWM-550A : A brand-new Studio Wall Monitor

SWM series monitors are newly designed for the best match for the studio walls. A clean bezel with only a power button and a small indication lamp secures the best monitoring condition for the users. Along with the traditional interfaces of SDI, HDMI and DVI, the optical fiber interface has been added for the user's choice. It supports video formats up to 3G-SDI and professionals features such as Marker, Timecode, Audio Level Meter, various CCs and UMDs.

Features:

- 55" 1920 x 1080 (16:9) Resolution
