

NTI e-slido-14-240vtr Compact Spot Liquid Detector/Point Leak Detection Sensor w 240/208/120 - 24 VAC Power Transformer/Country-Specific Line Cord

Compact-Size Spot Liquid Detector/Point Leak Detection Sensor with 240/208/120 to 24 VAC Power Transformer and Country-Specific Line Cord

Features:

- Use to detect fluids in confined areas, such as condensation drip pans.
- SPDT alarm contacts
- One generic relay output
- No exposed metal sensing posts – nothing to rust or corrode
- Potted electronics — functions when submerged in water
- Adjustable detection level.
 - Probe height adjustable 0" to 0.75" (0 to 19mm)
- Dimensions WxDxH: 1.55x1.0x2.0 in (39x25x51 mm)
- Cable length: 14 feet
- E-SLDO-14 includes 24V/0.5A US power supply.
- E-SLDO-14-240VTR includes 240/208/120 to 24 VAC power transformer and country-specific line cord.
- Regulatory approvals: CE, RoHS
