

Atlona AT-HDMI-38 3x8 Atlona HDMI Switch/Splitter

3x8 Atlona HDMI Switch/Splitter. Model: AT-HDMI-38

The Atlona AT-HDMI-38 is a high performance 3-in 8-out HDMI Switcher with remote control. It allows you to connect up to 3 HDMI sources and output to 8 HDMI displays. The 8 HDMI outputs are identical, and each supports up to 1080p. All the outputs on the switch are mirrored, which means that same signal would be shown on all of the 8 monitors connected. Simply pressing one button on the remote you can select your desired HDMI source for display on eight HDMI TV's simultaneously. This unit can be integrated with and controlled by most automation systems, such as Crestron AMX ect., through the RS-232 port.

Key Features:

- High Resolution up to 1080p
- Splits 3 HDMI sources to as many as 8 outputs without signal loss.
- HDCP Compliant
- Built-in EDID simulator and HDCP keyset allows each output to work independently in connecting to a HDMI display.
- Supports a wide range of PC and HDTV resolutions from VGA to UXGA and 480p to 1080p. Maximum resolution bandwidth is 165MHz.
- Provides multi-channel I2S digital audio output, with sampling rate up to 192KHz.
- Support both compressed and uncompressed multi-channel audio.
- Remote control
- RS232 Port

Technical Specifications:

- Bandwidth: 1.65Gbps
- Resolutions: up to 1080p
- Inputs: 3 x HDMI
- Outputs: 8 x HDMI
- RS232 port: 9-pin
- Outputs Type: Mirrored
- Power Supply: 5V (universal 110/220v)
- Dimensions: 17.17(W) x 4.5(D) x 1.73(H) - (inch)
- Weight: 6LB

Package Includes:

- One AT-HDMI-38
- One Power Supply
- One IR Remote Control
- One User manual

Warranty:

3 year manufacture warranty (parts&labor)
