

# SECO-LARM DP-236Q Wireless Color Video Door Phone with 2mm Camera and 86mm TFT Monitor

Introducing the **ENFORCER®** Wireless Video Door Phone, the handheld home entry solution. Observe visitors on the large 33/8" screen as they arrive, communicate with them, take photos for later viewing, and unlock a gate to grant entry - all from the wireless monitor. Use up to three monitors for viewing anywhere in the home. And with the camera's wide 170° viewing angle, you don't have to compromise on convenience or security.

## Features

- Talk with visitors and unlock doors or gates via the monitor
- Handheld monitor's rechargeable battery allows convenient communication with visitors while moving around the premises
- Wide 33/8" monitor screen for enhanced viewing
- Connect up to two additional monitors (sold separately)
- Includes a kickstand and charging base for the monitor
- Egress input allows the door phone to be connected with a Request-to-Exit Plate or other egress device
- 9-16 VAC/VDC Operation - connects to most doorbell circuits
- Adjustable lens for a wide variety of viewing angles
- Camera's built-in PIR sensor takes photos of approaching visitors
- Up to 100 images can be stored in memory
- Camera has built-in LEDs for nighttime operation
- Camera is IP55 rated for outdoor use
- Tamper switch triggers alarm if camera is removed from its base
- Four programmable doorbell tones
