

# SECO-LARM E-921APQ Auto Dialer for Security Systems

When triggered by an alarm system, the **ENFORCER** Auto Dialer can call up to 5 numbers and deliver a beep alert repeatedly for one minute. The receiver can then listen in to the room occupants or can disarm the system. The dialer includes a home mode (acting like a door chime when the owner is present) and a panic button. The 105dB built-in siren alarm can be programmed on or off.

## Features

- 16-Digit large display with date/time and function icons
