

SECO-LARM E-931-S35RRQ Reflective Photoelectric Beam Sensor/35ft

Reflective Photoelectric Beam Sensor/35ft

Features

- For outdoors gates, garage doors, etc.
- Adjustable sensing range
- 12~240 VDC / 24~240 VAC Operation
- Current draw: Up to 40mA@12VDC
- For indoor or outdoor use (IP66)
- Pre-wired 6.5ft (2m) cord
- Brackets and mounting hardware included
- Compact size
- New single-gang box and wall-mount brackets available

Typical Applications

- Sensor for garage doors, outdoor gates or overhead doors
- Sensor for industrial automation to detect objects on manufacturing line
