

# SECO-LARM E-931-S45RRQ 45Ft Reflective Photoelectric Beam Sensor

45Ft Reflective Photoelectric Beam Sensor

## Features

- 12~250 VAC/VDC.
- Weatherproof (IP66) construction for indoor/outdoor usage.
- Includes 3-inch round reflector and hood.
- Pre-wired 6ft (2m) Cord.
- Bracket and mounting hardware included. Includes two sensor mounting brackets.
- Adjustable sensing distance and response time - 5~100ms.

## Typical Applications

- Sensor for garage doors, outdoor gates or overhead doors.
- Sensor for industrial automation to detect objects on manufacturing line.
- Entry detection for store fronts.
- Assist in measuring parking distance.
- Alarm sensor.
