

SECO-LARM E-964-Q660Q Multi-Frequency Quad Photobeam Detector/660ft Outdoors/1320ft Indoors

ENFORCER Long Range Photobeam Detectors are easy-to-install with laser beam alignment and provide extended range. Designed to provide reliable perimeter security both indoors and outdoors.

Features

- Built-in laser beam alignment system speeds accurate, reliable positioning
- Multi-frequency (4 channels selectable)
- Quad infrared beams provide reliable perimeter security, minimizing false alarms from falling leaves, birds, etc.
- Lensed optics reinforce beam strength & provide excellent immunity to false alarms due to rain, snow, mist, etc.
- Weatherproof, sunlight-filtering case for indoor & outdoor use
- Anti-frost system with built-in heater so that beam functions even in extreme conditions
- Automatic input power filtering with special noise rejection circuitry
- NO/NC alarm output
- N.C. tamper circuit included
- Non-polarized power inputs
- Quick, easy installation with built-in laser beam and audible alignment system
- Built-in alignment strength indicator
- Interruption time adjustable for nearly all situations
