

SECO-LARM EVP-124M6P16Q 12VDC/24VAC CCTV Power Supply - 16 outputs

SECO-LARM's AC/DC CCTV power supply is the cost-effective way to power multiple cameras. The **EVP-124M6-P16** power supply provides 8 adjustable 12.0~15.1 VDC outputs, plus another 8 outputs at 24VAC, all separately fused.

All outputs have individual Positive Temperature Coefficient (PTC) fusing and individual status LEDs, as well as surge protection and input fuses to provide the highest level of protection, packaged in a tough metal enclosure.

Features

- Individually protected PTC-type fused output
- DC outputs are regulated and filtered
- Individual status LED indicator for each output
- Main power switches with surge protection
- Includes enclosure, 6-foot power cord, and UL listed transformer
- DC outputs are adjustable from 12.0~15.1 VDC
- 12" x 12" x 3-1/2" (308x311x91mm)
