

SECO-LARM MVE-AA11-01NQ HDMI Extender (Transmitter/Receiver) Kit over Single Coaxial Cable up to 328ft/100m

The **ENFORCER** HDMI® Extender over Single Coaxial Cable extends the range of traditional HDMI® cabling methods by using an active transmitter and receiver to send video and audio over a single Coaxial Cable with zero signal loss. HDMI® formats as large as 1080p can be transmitted up to 328' (100m) between the two units.

Features

- **Signal Strength** - Active operation ensures that the signal strength will remain strong over the length of the cable
- **Distance** - The HDMI® Extender over Single Coaxial Cable is capable of providing a clear HDMI® signal up to 328ft (100m)
- **Formats Supported** - The HDMI® Extender over Single Coaxial Cable supports both progressive and interlaced formats: 1080p/1080i/720p/576p/480p/480i
- **Plug and Play** - The HDMI® Extender over Single Coaxial Cable comes as a complete set consisting of a transmitter and receiver, power supplies, and IR dongles
- **Zero Signal Loss** - Integrated circuits in the transmitter and receiver clean, buffer, and amplify the HDMI® signal to prevent signal loss and ensure a clear signal regardless of the length of the cable
- **IR Pass-through** - Send IR signals from the source to the monitor for discrete operation of devices
