

SECO-LARM MVE-AH010Q HDMI Extender (Transmitter/Receiver) over Dual CAT5e/6 UTP cables

With a range of 196ft (60m) at 1080p resolution, the **MVE-AH010Q** uses two low-cost Cat5e/6 cables to transmit HDMI signals instead of heavier, less flexible, and more expensive HDMI cables.

Features

- **Status LEDs** - Indicate power and HDMI® connection complete
- **Signal Strength** - Active operation ensures that the signal will remain strong over the length of the cable
- **Distance** - Capable of providing a clear HDMI® signal up to 196ft (60m)
- **Formats Supported** - Supports both progressive and interlaced formats:1080p/1080i/720p/576p/576i/480p/480i
- **Plug and Play** - Comes as a complete set consisting of a transmitter and receiver; no adjustments or settings need to be made
- **Zero Signal Loss** - Integrated circuits in the transmitter and receiver clean, buffer, and amplify the HDMI® signal to prevent signal loss and ensure a clear signal regardless of the length of the cable
- **DVI Support** - Can be used with an HDMI® to DVI adapter to support multiple components of a home theater system
