

Barco R9864030 SMS/GSM Module for HDX

The SMS / GSM Card for HDX from Barco will allow you to add your own SIM card so you can communicate with the projector via text messaging. You will be able to power up and down your projector, poll error codes, and set the projector to send warnings on lamp life. You can also watch for errors and set light output via text messages. All this from your phone with the.
