

# SECO-LARM SD-7213-RSP RTE Plate with Pneumatic Timer - Single-Gang/Red Mushroom Button

The ENFORCER SD-7213-RSP Request-to-Exit Plates with Pneumatic Timer are ideal for applications where providing power to a timer is inconvenient, hazardous or not conforming with local codes and ordinances. Adjusting the time is easy via a timing screw and can be performed on the spot without tools.

## Features

- Built-in pneumatic timer - no power required (1-60s)
- Excellent for installations where supplying additional timer power is inconvenient
- Reliable American-made pneumatic components
- D.P.S.T.
- NO/NC contact rated 5A@125VAC
- "EXIT" and "SALIDA" silk-screened on plate
