

## **MirageVision MV 65 SPS 65 inch UHD Outdoor TV Silver Patio Series**

### **65 inch UHD Outdoor TV Silver Patio Series**

Our Silver Patio Series is the affordable alternative to just installing a "Regular Indoor TV" in an outdoor environment. It could be a matter of weeks or a few months before the Indoor TV would fail, not to mention you will not be able to get a clear bright enough picture in daytime viewing.

Our Silver Patio Series TVs still have the same internal weatherproofing (KryptoShield) and picture enhancement (MPET) calibration as our Gold and Diamond Series, but we have excluded our RainGuard and MVVP Technology to make these models more affordable for customers who can install them in a covered shaded area, whereas rain and direct sun will not come in contact with the TV.

Affordable Patio Series - Custom altered for shaded/covered patio areas where the TV will not get wet and/or directly receive down pouring rain or snow.

One (1) year replacement limited warranty.

Note: These models have been semi-weather proofed & calibrated with our Mega Picture Enhancement Technology (MPET) for outdoor shaded/covered patio areas. Whereas direct rain & sun will not come in contact with the unit. Thus, they are an affordable alternative when compared to our high end units than to just installing a regular "indoor" TV not made or warranted for outdoor use.
