

WyreStorm CAB-HAOC-15 18Gbps Over Active Optical HDMI Cable 15m/49ft

18Gbps Over Active Optical HDMI Cable 15m/49ft

The latest addition to WyreStorm's line of AV accessories, the CAB-HAOC is a next generation active optical HDMI cable designed for delivery of full bandwidth next generation 4K UHD content up to 30m/98ft.

Stepping-up from our standard copper HDMI cable as found on our Express line, the CAB-HAOC enables uncompressed transmission of 18 Gigabit HDMI content using the latest optical transmission technology supporting full bandwidth 4K/60Hz at 4:4:4 8-bit and HDR 12-bit at 4:2:2 with HDCP 2.2 ensuring compatibility with the absolute latest 4K UHD content.

A 20mm head width allow cables to be easily fed through conduits, while solid alloy head construction and gold-plated connectors all add up to perfect point-to-point signal extension or connection from a source to WyreStorm 4K UHD matrix switcher or splitter and display device in any environment where copper transmission would be susceptible to electromagnetic or radio frequency interference.

Features:

- Uncompressed transmission of 18Gbps HDMI content using the latest optical transmission technology
- Supports full bandwidth 4K/60 at 4:4:4 8-bit
- Compatible with latest UHD HDR content 4:2:0 60Hz 10-bit
- Perfect for use in environments with excessive EM or RF interference
- 20mm/0.79" head width perfect for feeding through conduit
- Available in 10m/33ft, 15m/49ft, 20m/65ft and 30m/98ft lengths
