

WyreStorm TX-H2-CLB H2 Matrix HDMI modular card with Class B HDBaseT output and HDCP 2.2

HDBaseT™ Class B offers the same signal quality and reliability but half the transmission distance for greater cost-efficiency for shorter cable runs not requiring Ethernet passthrough.

Features:

- HDMI input
- HDBaseT™ Class B Output - Transmitting Class B HDBaseT™ (without Ethernet) which includes video, audio, control and power up to 35m/115ft of 4K and 70m/230ft of 1080p. Same signal quality and reliability, but half the transmission distance for greater cost-efficiency for shorter cable runs.
- IR RX- Allows control signals to be sent to the sink device
